

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**October 10, 2008**

**Permit Number:** OCRM-08-222-E  
**Permit ID:** 64554

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** John Condon  
c/o Forsberg Engineering  
PO Box 30575  
Charleston, SC 29417-0575

**LOCATION:** On and adjacent to the Intracoastal Waterway at 5053 Bryan Rd., Hollywood, Charleston County, South Carolina. TMS#: 248-00-00-078 and 248-00-00-089.

**WORK:** The work as proposed and shown on the attached plans consists of building a 340' timber bulkhead. An existing wooden and concrete headwall approximately 240' long will be replaced with a new wooden headwall located 1' beyond the critical line at one lot, and a new 100' wooden headwall will be constructed along the critical line at the second lot. The purpose of the proposed activity is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 25, 2008. For further information please contact the project manager for this activity, Bill Eiser, at 843-953-0237.*
